When It's Raining

The Samples

When years pass between us
And the light shines on the water
I ask please for one thing
Leave shelter when it's raining, when it's rainingDecisions in blueprint
So nervous and deceiving
In concrete, these structures
That our small hands just keep buildingThrough towers and phone lines
Connections to each other
I wonder who's watching
As light shines on the waterWhen stars fall beyond us
And our small eyes just keep watching
I ask please for one thing
Leave shelter when it's raining, when it's rainingWhen it's raining, when it's raining
When it's raining, when it's raining
