

# Half-Life

## Local H

Three, four half-life, welcome the worst  
Born to your station and your station's a curse  
Daddy says, "Wait and see"  
Ain't seen the sun since 1973 Half-life, fake your claim  
Falling asleep and waking up is the same  
Half alive and half dead too  
Work is for suckers and the sucker is you You know the lies they tell are told until they're true  
You know they hardly ever, you know they hardly ever  
(Yeah, I'm falling fast, I'm not gonna last) Ya want it, they got it, it's your circumstance  
You know the hardly ever give a leaper a chance  
Half-life, half-life, half-life or nothing at all Half-life and all fucked up  
You're born with nothing better make it enough  
Pat in the back kick in the teeth  
Alcohol will be your only relief You know the lies they tell are told until they're true  
You know they hardly ever, you know they hardly ever  
(Yeah, I'm falling fast, I'm not gonna last) Ya want it, they got it, it's your circumstance  
You know the hardly ever give a leaper a chance  
Half-life, half-life, half-life or nothing at all You know the lies they tell are told until they're true  
You know they hardly ever, you know they hardly ever  
(Yeah, I'm falling fast, I'm not gonna last) Ya want it, they got it, it's your circumstance  
You know the hardly ever give a leaper a chance  
Half-life, half-life, half-life or nothing at all You know the lies they tell are told until they're true  
You know they hardly ever, you know they hardly ever  
(Yeah, I'm falling fast, I'm not gonna last) Ya want it, they got it, it's your circumstance  
You know the hardly ever give a leaper a chance  
Half-life, half-life, half-life or nothing at all You know they hardly ever give a leaper a chance
