

# In Effigy

## Shadows Fall

You will never give the power  
To the powerless  
Your ideal has grown  
Far beyond your control Can you ever find yourself again?  
Your vision destroying  
Knowing it will never end  
Can't see through your eyes Can you imagine  
What is only one step away?  
The potential is waiting  
Just beyond your grasp Can you ever find yourself again?  
Your vision destroying  
Knowing it will never end  
Can you keep fighting on and on? This false me will burn in effigy  
This false me will burn in effigy It's so easy to relax and watch from afar  
It's so easy to give in to [incomprehensible] Can you ever find yourself again?  
Your vision destroying  
Knowing it will never end  
Can't see through your eyes
