

Made to Run

Blue Merle

I've been high and I've been low
I've been wandering 'round the city of New Orleans
Summer nights on crowded streets
I've been tearing down the walls around my heart
Fools cannot deny
All the things you touch inside
Like the daylight needs the sun
Girl, you and me were made to run
Left behind a trail of love in the shadows
On the wall above your bed
Nothing but a quarter moon and
A halo making stars around your head
Fools could not deny
All the things you touch inside
Like the daylight needs the sun
Girl, you and me were made to run
It's like the song that's in your head
It's like the song that's in your head
You are the song in my head that I find
Was the song I am singing all along
Driving fast, tracing lines in the dust
Around the memory of your love
Far away, sleeping sound
Waiting for my headlights in the drive
Fools cannot deny
All the things you touch inside
Like the daylight needs the sun
Girl, you and me were made
Girl, you and me were made
Girl, you and me were made to run
