

Who Am I

Spaceship

You remind me of
A TV show I used to love
That I still watch the reruns of And I can't forget
The episode I long to regret
I have tried but I haven't yet I used to go
To the shelter of my radio
But you're in every song
No longer do I sing along Tell me, who am I
I ask myself a thousand times
And the answer is hard to find
