

Your Song Goes On Forever

[Aaron Gillespie](#)

Back before the sea
Before the skies were blue
There was this melody
No one could hear but YouWhen the noise has finally disappeared
I can hear your anthem loud and clearYour song goes on forever
I will sing my part, with my whole heart
Your song goes on forever
I will bless your name; I will sing your praise
Forever
Your song goes on foreverIn my brokenness
In my victories
Even when I'm lost and scared
It still plays inside of meWhen the noise has finally disappeared
I can hear your anthem loud and clearYour song goes on forever
I will sing my part, with my whole heart
Your song goes on forever
I will bless your name; I will sing your praise
Forever (Forever)
Forever (Forever)
Your song goes on foreverPraise is rising
Eyes are turning
I lift my voice to YouPraise is rising
Eyes are turning
I lift my voice to YouYour song goes on forever
I will sing my part, with my whole heartYour song goes on forever
I will sing my part, with my whole heart
Your song goes on forever
I will bless your name; I will sing your praise
Forever (Forever)
Forever (Forever)
Your song goes on foreverForever
