

# Blue Mantle

## The Aliens

Space Calling Spider X , Space Calling Spider X.,  
If you look inside your suitcase,  
You will find your magic eye.  
Go through the main door.  
I lived in a house on the other side of the moon.  
Where the people drive in the greenest life,  
In the greenest life.

I sailed in a boat to the other side of the sun, T  
he people there were pleasant too, I swam the milk,  
on the way I drank a star,  
I could not find a place to stay,  
I looked to the ground,  
But that was so so far,  
The people in the road,  
Twas only in the cloud,

So i looked around and I spotted someone falling down,  
Cloudy hair with the greenest love in town,  
They were cutting me down,  
I was cutting me down I shall not open my mouth,  
I shut and opened my mouth,  
I was afraid, I was afraid to stay,  
I shall not open my mouth, I shut and opened my mouth,

But the people, all the people,  
They were evil,  
Some were good, But most of them were evil,  
Shananana shananana,  
Sailing away now, sailing away now...

I'm waking up love, I'm waking up love...  
Gonna sing along now to bobby's song,  
Something that I wanna say,  
I'll never let you walk away,  
I'm gonna write you a song today.
