Sculpture Garden

Semisonic

Twilight in the sculpture garden
We walk around the place
Look upon the beautiful secrets
That all the artists made
How fast the light has faded?
When we still wanna stay
Turn down the noise in the city
The dark downtown parade
At night they turn the water
On around the artworks
In the garden, in the garden
Midnight in the sculpture garden
Underneath the cherry moon
We can make our own beautiful secret
We can join the fabled few
Starlight in the sculpture garden
With a stainless steel balloons
Rose petal vermilion breezes
I believe the artists knew
At night they turn the water
On around the artworks
In the garden, in the garden
In the garden, in the garden
Starlight in the sculpture garden
With a stainless steel balloons
Rose petal vermilion breezes
