

# Bullet

[Tim Halperin](#)

She wants me to bleed for her  
Get down on one knee for her  
My heartbeat is racing  
I can't stand this chasing  
She knows what I'm thinking  
I'm thinking we're sinking  
I've gotta get out  
My moment is now She's a bullet to the gun I hold  
When I pull the trigger, when I let her go  
Another victim lying dead on the floor  
She's a killer, and she knows it  
She knows it I'm lying awake at night  
To make sure my timing's right  
She's stalking her prey  
It's not far away  
I reach in my dresser drawer  
To find what I'm searching for  
I'm taking control  
I can't take this no more She's a bullet to the gun I hold  
When I pull the trigger, when I let her go Another victim lying dead on the floor  
She's a killer, and she knows it  
She knows it This is my moment, I take a shot  
The blast is perfect but my aim is not  
Heavy breathing and gasping for air  
I see her victim, he's lying there  
This is my moment to have, to hold  
This is my moment I'll let her go  
This is my moment  
I said I'll let her go, oh I'll let her go She's a bullet to the gun I hold  
When I pull the trigger, when I let her go  
Another victim lying dead on the floor  
She's a killer, yeah she's a killer  
She's a bullet to the gun I hold  
When I pull the trigger, when I let her go  
Another victim lying dead on the floor  
She's a killer, and she knows it  
She knows it
