

Brave New World

Toyah

Loneliness that no-one knows,
When his love dies,
Yours grows and grows.
It's a cruel world.
Shall I tell you what I'll do?
I'll forget you (you, you, you, you...)New beginnings, new surroundings, new love
Another world to dream of
New beginnings, new surroundings, new love
It's a brave new worldRemove the thorn from the lion's paw
Hear my words, "Pain no more!"
I'm going places I've never seen before...
New faces, new words.
Send my kisses to the old world,
New beginnings, new surroundings, new love
Another world to dream of
New beginnings, new surroundings, new love
It's a brave new worldAhhh
Ahhh
It's a brave new world
It's a brave new world
I'll forget you
I'll move on...New beginnings, new surroundings, new love
It's a brave new world
New beginnings (It's time)
New surroundings (To move on)
New love, it's a brave new world
New beginnings (ooh), new surroundings (ooh), new love
It's a brave new world
New beginnings (It's time)
New surroundings (To move on)
New love, it's a brave new worldNew beginnings (ooh), new surroundings (ooh), new love
It's a brave new world
New beginnings (It's time)
New surroundings (To move on)
New love, it's a brave new world!New beginnings...
I'll forget you...I'll move on...I'll forget you...The voice of
Discontented youth...New beginnings...End
