

# Syringes In the Sandbox

## D.R.I.

There once was a park where the kids used to go  
But not anymore 'cause their parents all know  
There's junkies and whores and bums drinking beer  
And the tragic event that happened last year  
Two kids were playing, digging in the sand  
One with a shovel and one with his hand  
Jabbed by a needle carrying hiv  
And now he's infected with the disease  
He found syringes in the sandbox  
He found syringes in the sandbox  
The cops just watch 'cause they're on the take  
Maybe the don't know what is at stake  
The lives of children, with certainty  
Maybe the rest of the community  
We're only human, what can you expect?  
Just shows the life we're willing to accept  
Another drive-by, everyone stares  
What it comes down to is nobody cares  
He found syringes in the sandbox  
He found syringes in the sandbox [Lyrics: brecht]
