# Bedtime Stories

## Anomie Belle

Once upon a time, there was a boy and a girl
I see you there throwin' pebbles at my window
It's 12 o'clock, what you doin' up?
It's late for me yet, something draws me closer
But daddy's home, just my luck
Wanna hear your voice before I close my eyes
But baby, you better think twice
Before you come around and tell me
Bedtime stories, better think twice
Before you come around and tell those bedtime stories
Better take daddy's advice
As much as I like a little danger
I have some rules by which I must abide
So, listen up if you want to have a future
Take it from me, you'd better run and hide
See you at school
I'll catch you on the playground
But don't look my way when the sun goes down
Before you come around and tell me
Bedtime stories, better think twice
Before you come around and tell those bedtime stories
Better take daddy's advice
I know we're much to young for love
So, baby let's take it slowly, ya, ya
Don't you come around telling bedtime stories
Don't come around telling me those bedtime stories
Wanna hear your voice before I close my eyes
But baby, you better think twice
Before you come around and tell me
Bedtime stories, better think twice
Before you come around and tell those bedtime stories
Better take daddy's advice
