

# Waiting On The Day

[John Mayer](#)

waiting on the day when my thoughts are my own  
when this house is my home  
and plans are made  
when you be there for me baby  
when you love me all the way  
when you take my side in every little firefight  
when you hang your things and stay i'm waiting on the day  
when my life on the run  
bleaches out in the sun  
and shows my age  
waiting on the day when that voice comes to say  
that's it's not wrong what you did  
for just a kid  
when you be there for me baby  
when you love me all the way  
when you take my side in every little firefight  
when you hang your things and stay  
i'm waiting on the day waiting on the day when these words are in stone  
when the kids are all grown  
and we go dancing  
oh can you do it babe?  
can you love me all of the way?  
will you tire me tired in little strands of paradise  
will you walk with me before the morning fades i'm waiting on the day
