

Between You and Me

Justin Moore

Between you and me
We only had a couple drinks
But I'm starting to think
I can close this tab
Oh, between you and me
I just wanna get out of here
And we could up and disappear
Into the back of a cab
No we ain't got to tell nobody
Between you and me
Is a black dress, t-shirt, and a pair of jeans
Couple steps front door, baby, turn the key
And 'cause right now the only thing, only thing
Oh, between you and me
Is lip gloss kissing off
We ain't got to speak
Hit the lights
Pull the blinds
Rip off the sheets
Yeah I don't want anything, anything
Girl between you and me
Oh, between you and me
Between you and me
I don't even really like to dance
But you called, so here I am
Yeah, I'm only playing
Girl, you ain't fooling anybody
Between you and me
Is a black dress, t-shirt, and a pair of jeans
Couple steps front door, baby, turn the key
And 'cause right now the only thing, only thing
Oh, between you and me
Is lip gloss kissing off
We ain't got to speak
Hit the lights
Pulled the blinds
Rip off the sheets
Yeah I don't want anything, anything
Girl between you and me
Yeah, you got me going crazy
Getting close as we can be
Getting rid of everything, everything
Oh, between you and me
Is a black dress, t-shirt, and a pair of jeans

Couple steps front door, baby, turn the key
Yeah 'cause right now the only thing, only thing
Oh, between you and me
Is lip gloss kissing off
We ain't got to speak
Hit the lights
Pull the blinds
Rip off the sheets
Yeah I don't want anything, anything
Girl between you and me
Oh, between you and me
Between you and me
Oh, between you and me
