

Do You Know What You're Fighting For

Halloween

Day by day you work off your claws
The line of fate in them may not pay your loans
You got to keep going and going on strive
Day by day Do you know? Ooh, do you know? Ooh..Do you know what you're fighting for?
The seed is sown, but we don't know the score
They will rule us, this breed of futility
You won't make an escape
'Cause we will still be alive Disenchantment, alienation
A slog to feed future, estranged generations
And retired, will you get rewarded
Your brave restraint? Do you know? Ooh, do you know? Ooh..Do you know what you're fighting for?
The seed is sown, but we don't know the score
They will rule us, this breed of futility
You won't make an escape
'Cause we will still be alive Do you know what you're fighting for?
The seed is sown, but we don't know the score
They will rule us, this breed of futility
You won't make an escape
'Cause we will still be alive Ooh, will they need you?
Will they pay you?
