

Like Snow

Thirsty Merc

Like snow
Like everything I feel
The world keeps turningMy hands
My hands are all I see
No path under my feetI'm falling
I'm fallingOne light
One light in all this time
The world keeps turning
I try
I try my best to see
And it follows meIt's calling
It's callingLike snow
Like everything I feel
The world keeps turningMy hands
My hands are all I see
No path under my feetI'm falling
I'm falling
