Take my Hand

Trinah

If you ever feel you're lonely
Ask me how I am
You think you've lost your one only
Best believe I understand

Maybe I might not be able
To see the things that you've gone through
But if you sit down on that table
I' ll try to walk a mile with you

So come on, take my hand
Come on, take my hand
We'll keep turning on, my friend
Someday you'll understand

If all they ever did was doubt you
All they did was disbelieving
There's always someone caring about you
Somewhere there's good you will receive

So come on, take my hand
Come on, take my hand
We'll keep turning on, my friend
Someday you'll understand

Oh??

So come on, take my hand
Come on, take my hand
The world keep turning on, my friend
And someday you'll understand

So come on, take my hand
Come on, take my hand
The world keep turning on, my friend
And someday, someday you'll understand

Take my hand
Take my hand
Come on

Someday you'll understand
