

Hurricane

[Nick Fradiani](#)

When you hit me more than once
But I never raised a hand
You know it takes a lot of strength
To learn to be a better man
As if the power had gone out
We are now standing in debris
And I caught it when you threw all my mistakes at me
Like a hurricane, you came and hit us without warning
I hate to see the rain when it's falling from your eyes
Like a hurricane, we should have waited until the morning when it's calm
Oh, we ain't crazy, we just made it through the storm
We ain't crazy (we ain't, we ain't crazy)
As we all sense the damage done
I wanna what have we become
We fell apart, it's got our hearts all black and blue
If I'm not sorry in my head
Then may lightning strike me dead
No weather will untangle me from you
Like a hurricane, you came and hit us without warning
I hate to see the rain when it's falling from your eyes
Like a hurricane, we should have waited until the morning when it's calm
Oh, we ain't crazy, we just made it through the storm
Well, the storm may take our house down
But it can't shake off our mission anymore
Oh we ain't crazy, no
Like a hurricane, you came and hit us without warning
I hate to see the rain when it's falling from your eyes
Like a hurricane, we should have waited until the morning when it's calm
Oh, we ain't crazy, no
Like a hurricane, you came and hit us without warning
I hate to see the rain when it's falling from your eyes
Like a hurricane, we should have waited until the morning when it's calm
Oh, we ain't crazy, we just made it through the storm
Storm
Oh, we ain't crazy, we just made it through the storm
No, we ain't crazy, we just made it through the storm
