Blaze Starr

A.Tone Da Priest

(Hook)
Blaze star, blaze star, to rise so high above us
Blaze star, blaze star, to shine your light on others
(Verse 1)
Blaze star, quasars affirm our existence
As one, oh were the bliss went?
Fond of resistance individualistic slur
Of the same thing, straining to make it not a blur yet Im
(Bridge)
Left forgotten without a home
Life has failed you, all youve known on your own
But never alone
Preach the tales of brass and gold
Lifted hearts enlightened souls heed your call
Youve reached the downfall
(Hook)
(Verse 2)
We just need some inspiration
Help the children too, build a nation
Blaze star, lift the troubles away from here
Blaze star, with the light I dont acknowledge fear
Blaze star, give me, give me, give me, give me give me away
To go far away from here
Say its ours, for the rest of the world to see and blaze star
