

Stay Loose

Broncho

She was the first penitentiary
That I'd ever seen
I used to come just to make it okay
And when the back-biting babies tried to tell me your plans
I always knew just how much to erase I've got the kind of plans I'm thinking gonna get me home
And promise things just before I'm awake
She'd make me add that stupid shit I never do
I used to come just to make it okay We were a memory
We were a meant to be
Look in love
And STAY LOOSE Your karma, oh it's been so good to me
You're wasting time has really got me thinking
That you're the other unfortunate one You got me kamikaze baby on the side of the boat
You check your cash cause I'm gonna get paid
And with a cruel naughty body I always do what I'm told
You throw your line just to make me obey Your karma, oh it's been so good to me
You're wasting time has really got me thinking
That you're the other unfortunate one We've got a memory
We've got a meant to be
Look in love
And STAY LOOSE You fought for figures, now it's been so good to me
You got me thinking, what you got me thinking of
That you're the other, the unfortunate one (x3)
She was the first penitentiary
That I'd ever seen
That I'd ever seen
