

# Tighten Up Your Wig

## Steppenwolf

What can you see with your ear on the ground?  
Try to lift up your feet, girl, and take a look around  
Oh, let me see your eyes girl, we've got to make them big  
If you'd like to see the truth, I better tighten up your wig Your mind is too narrow, and it's no surprise  
If you fell on a pin, well, you'd be blind in both eyes  
Oh, let me see your head, girl, we've got to make it big  
Until your ears come apart, I better tighten up your wig Watch out for the lunch bunch, they'll try to bring you  
down  
Don't get hung up in the shower, baby, you might drown  
Oh yeah, oh, your head looks kinda big  
Before I loose you mind, girl, I better tighten up your wig Just before we go, I'd like to mention Junior Wells  
We stole his thing from him, and he from someone else  
Oh, yeah, yeah, yeah, yeah, he plays the blues like few before  
May he play forevermore
