

# Don't

## Phoenix

Just don't bother  
Don't fed the animals  
Don't let them run in circles  
Don't be told  
It just don't matter  
It just don't matter  
If you're more than ready, run away  
From dusk to dawnLast night on the couch you're livin'  
It's a poor complaint  
It's the only thing  
You're sad and underweight  
Whatever, we're so close to serious  
Whatever promise you made  
I have no problem to say noI'll never know  
I'll never know  
I'll never know you  
Restrained  
Reach out for me  
I'll never know  
Don'tIt's just another  
It's just another complicated case  
To settle down the road  
Whatever we're too close to serious  
Whatever promise you made  
From dusk to dawnDon't swear that it is your fault  
You're sophisticated  
I saw the chandelier  
I'm folding under stress  
Whatever we're too close to serious  
Whatever comments you make  
I hear them rattle to say noI'll never know  
I'll never know  
I'll never know you  
Restrained  
Reach out for me  
I'll never know  
Don't
