

# My Roots

## Tribal Theory

[Intro Verse]

First off let me tell you where we're from  
Just some island boys from half across the world  
Residing in a concrete jungle  
Don't get me wrong  
The roots run deep  
I know a couple clans  
And you know they from the street  
They got that fire  
Take ya higher

This is my people so i sing it like a choir [Chorus]

My Roots

My Roots & Culture x8 [Verse 2]

Lets take that trip  
It wont take long  
And once you're there  
You feel at home  
From the people to the sea  
Let me show you what i mean  
Life without a care  
Said, You would love it there  
We're from across the sea  
Right there by the Marseilles  
New Zealand  
Philippines  
Aloha Hawaii  
Tahines down in Tonga  
Talofa to Samoa  
CNMI Guam

Me tell ya where we from

Its bout My Roots [Chorus] [Verse 3]

All my Melanesian people say, ya  
All my Micronesian people say, ya  
My Polynesian people say, ooh  
Oceanic people, this one's for you  
(This one's for you now)  
Island Queens to the left  
Island Kings to the right

Together we can feel the groove all night

No need to stress and no need to fight  
Cause if its right  
We can vibe until the morning light

Outro Chorus
