

# The Imploding Voice

## Smashing Pumpkins

Everywhere you are  
Is everywhere you've been  
Just lost to the beat  
Punching through your skin  
You don't know what to do  
But still you wanna crawl  
All through the broken glass  
That's everywhere you are  
Your love must always be true  
Your love must always be you  
Everywhere you are  
Anywhere you go  
Even if you're starved  
It matters what you do  
But even if you've gone too far  
You can follow you  
Everywhere you are  
And in your mind  
You were alone  
All this time  
With everything you were  
And every smile you wore  
Still locked in your heart  
Everywhere you are  
Everywhere you are  
Every single chard  
Everywhere you are  
You're never too far  
'Cause anywhere you'd go  
Even to the stars  
All you have to do  
Is play the part of who you are  
The rest is up to you  
Phase unwound by yourself  
Atom bomb on the shelf unsung  
Pause of light, pulse of life  
New face dawns  
Everywhere you are  
And everywhere you go

Even if you're down  
Even if you're low  
It's in the thought of you  
It's in the eyes of all  
Astride a storied past  
That's everywhere you are  
Your love must always be true  
Your love must always be you  
Everywhere you are  
Anywhere you go  
Even if you're scarred  
It's all a part of you  
But ever should you put it down  
You can never lose me  
Everywhere you are  
Everywhere you are  
Everywhere you are
