Young Love

Semi Precious Weapons

Every second, every hour, every day
Every chance I could see your face
I did, I did, I did
Oh, I didYou and me
And our girls in the train
Talking too loud, taking too much space
We lived, we lived, we lived
Oh, we livedFake IDs in the downtown bars
Going home singing songs in our best friend's car
We did, we did, we did
Oh, we livedYoung love is always enough (x4)
'Til it's not!Every second, every hour, every night
We dove into eachother's lives
We did, we did, we did
Oh, we didFree and doing what we want
Making movies in your dad's garage
We lived, we lived, we lived
Oh, we livedFake IDs in the downtown bars
Going home singing songs in our best friend's car
We did, we did, we did
Oh, we livedYoung love is always enough (x4)
'Til it's not!I tell our stories
To everyone since
There's our pale infant personI tell our stories
To everyone since
It's almost like it's still happeningYoung love is always enough (x4)
'Til it's not!
