Negative Light

Sebastian Bach

Negative lightNothin' lasts forever
Nobody rides for free
For twenty years I took a stand
You're not takin' no chance on meSome slow to anger
Some quick to hate
But when you've given all you got
And you just can't satiateWe all live in negative
Can we ride to the light?Deal in desperation
Peddling in spite
If it's a war you're lookin' for
You won't look far tonightI'm sick of restitution
I'm paying back in blood
All I ever wanted was a little action
And maybe just a little loveWe all live in negative
Can we ride to the light?Why you gotta make it harder than it has to be?
When we could come together
And show the world we're free
Break freeNegative light comes to me out of the shadows
Negative light gives me what I needNegative light gives me what I need
Negative light the part of me I don't want you to see
Negative light gives me what I need
Negative light
