

# Negative Light

## Sebastian Bach

Negative lightNothin' lasts forever  
    Nobody rides for free  
    For twenty years I took a stand  
You're not takin' no chance on meSome slow to anger  
    Some quick to hate  
    But when you've given all you got  
And you just can't satiateWe all live in negative  
    Can we ride to the light?Deal in desperation  
    Peddling in spite  
    If it's a war you're lookin' for  
You won't look far tonightI'm sick of restitution  
    I'm paying back in blood  
    All I ever wanted was a little action  
    And maybe just a little loveWe all live in negative  
Can we ride to the light?Why you gotta make it harder than it has to be?  
    When we could come together  
    And show the world we're free  
Break freeNegative light comes to me out of the shadows  
Negative light gives me what I needNegative light gives me what I need  
    Negative light the part of me I don't want you to see  
    Negative light gives me what I need  
    Negative light
