

# Secret World (Radio Edit)

## Tears for Fears

This is a garden, this is a steeple  
I hear the crowd before I ever see the people  
Yours for the asking and for the taking  
There is a power in the vacuum we are making You and I have a secret world  
And we can keep it unfurled  
And pay no attention  
To the cradle or the grave And when we're crossed we can say that we're lost  
In the middle of nowhere think you'll like it a lot  
And if we're wrong and we end up alone  
We'll light a candle for their innocent bones You and I have a secret world  
And we can keep it unfurled  
And pay no attention  
To the cradle or the grave You and I have a secret world  
And we can keep it unfurled  
And pay no attention And when we're crossed we can say that we're lost  
In the middle of nowhere think you'll like it a lot  
And if we're wrong and we end up alone  
We'll light a candle for their innocent bones You and I have a secret world  
And we can keep it unfurled  
And pay no attention  
To the cradle or the grave And when we're crossed we can say that we're lost  
In the middle of nowhere think you'll like it a lot  
And if we're wrong and we end up alone  
We'll light a candle for their innocent bones And when we're crossed we can say that we're lost  
In the middle of nowhere think you'll like it a lot  
And if we're wrong and we end up alone  
We'll light a candle for their innocent bones
