Professin' My Love

Karl Wolf

I'm professin', professin' my love to ya
I really don't think you understand me ma
Let me show you li'l bit a what I'm talking ma
I know you wanna be down 'cause you're stickin' around
Do I wanna give you my number?
(Na, na, na, na)
Do I wanna have your email?
(Na, na, na, na)
Do I wanna hang with your friends?
(Na, na, na, na)
Do I want my hand on your booty?
(Na, na, na, na)
'Cause I love you endlessly, glowin' like a star
Be there burning long, yeah baby
Broken on the screen, watching words I say
Catch me as I fall
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm looking in your eyes and I can see you doubt
I'm walkin' up slowly, the wolf is on the prowl
Take my hand, let me move you to the center spot
Flow with me baby, dance but the floor is hot
Do I wanna give you my number?
(Na, na, na, na)
Do I wanna have your email?
(Na, na, na, na)
Do I wanna hang with your friends?
(Na, na, na, na)
Do I want my hand on your booty?
(Na, na, na, na)
'Cause I love you endlessly, glowin' like a star
Be there burning long, yeah baby
Broken on the screen, watching words I say

Catch me as I fall
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm professin', professin' my love to you

Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
'Cause every time you pop online
I'm eager just to make you shine
I never want you to witness the life I live
Maybe we can get away
We're walkin' on the beach and sand
I hold you close, you take my hand
And then I'll never let go of you
'Cause I love you endlessly, glowin' like a star
Be there burning long, yeah baby
Broken on the screen, watching words I say
Catch me as I fall
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to

I'm professin', professin' my love to you
Hit me up on MySpace and I'll add you boo
I'm professin', professin' my love to you
Put you on my top 8 if you want me to
I'm professin', professin' my love to you
I'm professin', professin' my love to you
I'm professin', professin' my love to you
I'm professin', professin' my love to you
