

Uptown (Original)

AYA

If it seems I live for today
You and I don't see the same
Most people take what's around
We had fun
Whatever happened to all the things you wanted to be?
You used to be the one
Who made me keep on
You were the reason I could believe in myself
I feel like floatin' away
I find myself in a daze
It's a dream life anyway
When we used to Uptown
Boogie down
Hear the sound
Move it around
Now, don't sit down
Think about
Who you love
There's always someone to blame
Denied, your dreams fade away
Most people take what they've found
We had fun
Whatever happens
I'll still remember all that you said
I'll always head on
Never let go
All the dreams you wanted to live
Believe this life is a game
You'll find yourself in a maze
It's hide and seek everyday
You used to Uptown
Boogie down
Hear the sound
Move it around
Now, don't sit down
Think about
Who you love
Now boogie down
Let the sound
Move you around
Boogie down
Think about
Who you love
