

Prince Charming

Poppy Brothers

tonights the night
youre mine
you can save your kiss goodnight
you can kiss your heart goodbye
tonight youll make believe
that youre my beauty queen
and im your prince charmingill be your martyr
i would die for you
if blood is what you want
ill gladly give it to you
the saddest part is most of it is true
you held your breath for mr. right til you turned blueill be your starter
ill start a fire in you
i know where you should be
and ive got tickets for two
the saddest part is none of it is true
i never said i was the best but im the best youll do
