

D.N.K

BLUE ENCOUNTER

It's time for us as a band to start makin' changes now
See the old way was not working so it's on us to do
We gotta do
what we gotta do, for you
Don't let'em block us up and break us up, and cheat us up We don't care what they say Play the music that we
belive
If you can belive us, we're glad We won't leave you
We gotta do
what we gotta do, for you
Finally found our life Bring it on!
Take you over the rainbow Take you over the scenic spot
Take you over the happiness Take you Take you Follow us!
Take you over the rainbow Take you over the scenic spot
Take you, Never forget You can be anywhere you want to But you choice to be here
That's no coincidence it was meant to be
Do you feel out of place? Do you lock in your room?
Do you wanna refuge? Don't do it too much
Don't do it too much No one here to complain You may rough as you please.
No one here to bluff You may cry as you please.
No one here to normal Dance as you please.
They never stop us and never discard
It's time for us as a band to start makin' changes now
We don't care what they say We won't leave you
Do you feel out of place? Do you lock in your heart?
Do you wanna refuge? Here is your place!
Bring it on!
