

The Rain

The Jude\$

I dont wonder
But sometimes I sit and ponder
And I know that you will be there for meI dont bother
Feeling sorry even when I wanna
Cause I know that you will be there for meAnd I
I wanna love you
Oh you take the rain
Make it go awayI know better
Than dwelling on the stormy weather
And I dont want any other girl but youI dont worry
And you know that I aint in no hurry
Cause you know that I keep moving onAnd I
I wanna love you
Oh you take the rain
Make it go away
Rain go away
Rain go away
