

Sincerity

Lisa Stansfield

People say they care
But when it comes down to it
Do they have what I'm singin' for?
Let's sing it for
Sincerity
Sincerity People, rushin' round in their lonely lives
They'd like to care for others
But frankly they don't have the time
'Cause they're always doin' the things
They have to do so they'll be alright
Their always lookin' out for their own side
People think they've got priorities right Sincerity
The road we need to travel for a better way of life
Sincerity
An attitude we need to take if we want to survive
Come on give me sincerity
Come on give me sincerity Heartaches, everybody now and then
They're cryin' out for others to listen to them like a friend
But we're always sayin' we don't have the time
But we really sympathize
Maybe another time
Don't think about tomorrow
Do it while you've got the chance Sincerity
The road we need to travel for a better way of life
Sincerity
An attitude we need to take if we want to survive
Come on give me sincerity
Come on give me sincerity
Come on give me sincerity
Come on give me sincerity But we're always sayin' we don't have the time
We really sympathize
Well, maybe another time
Don't think about tomorrow
Do it while you've got the chance Sincerity
The road we need to travel for a better way of life
Sincerity
An attitude we need to take if we want to survive
Come on give me sincerity
Come on give me sincerity Sincerity

The road we need to travel for a better way of life

Come on give me sincerity

Come on give me sincerity

Come on give me sincerity

Come on give me sincerity
