Radio

Jake Owen

Well I can feel the sun shinin' on my face
And in the trees I hear the winds of change
The sky is blue and the grass is green
God is good, do you know what I mean?
That's a feelin' that grows
It's a feelin' that I know
So radio won't you play me some forgotten song
I wanna sing along, and feel that way again
I wanna run down that ole dirt road
Just to see how far she still goes
She used to run for miles when I was a kid
And that's a feelin' that I know..
It's a feelin' I get no matter where I go
Cause there really is no place like home
It's a part of me only you can find
Deep in my heart, and in my mind
It's a feelin' that grows

It's a feelin' that I know
So radio won't you play me some forgotten song
I wanna sing along, and feel that way again
I wanna run down that ole dirt road
Just to see how far she still goes
She used to run for miles when I was a kid
And that's a feelin' that I know..
It's the old oak tree where I carved my name
And baseball was my favorite game
And mama wiped the tears from my eyes
When Jenny broke my heart and made me cry
And it's a feelin' that grows
It's a feelin' that I know
So radio won't you play me some forgotten song
I wanna sing along, and feel that way again
