Candy Land Wedding

Kill Paradise

And it seems like we should know that this is wrong
And it seems like we should know that everything we had once is goneThis is your Mayflower coming over spring shower
Im gonna play til I bleed
And I cant dance with you tonight, Im gonna make it right
It's silk done right, a black candy high
And Im gonna make you fly tonightAnd I found you in the ocean blue, fake sky
Rosy colored bones poke through
And I can never write a lullaby for you, for youDo it man best you can
Driver's in the hippie van
Diamonds in my other hand
I cant believe it's happening
Whos my other sky meet me cause Im flyin high
Jordans silky dress up tie
I cant believe its happeningThe stars are align makes you want to dine
Back up cause Im fine and
I cant believe its happening
Golden color plates, porcelain legs, and fancy dates
Love me cause I know its fate
I cant believe its happeningI drink on glasses so I bleed
I just wanted you to know
Yeast sinks with gases so try to knead, me to youA picture perfect chocolate river and white canoe
In our graves we're wrapped with leather and Im kissing youAnd I found you in the ocean blue, fake sky
Rosy colored bones poke through
And I can never write a lullaby for you, for youDo it man best you can
Driver's in the hippie van
Diamonds in my other hand
I cant believe it's happening
Whos my other sky meet me cause Im flyin high
Jordans silky dress up tie
I cant believe its happeningThe stars are align makes you want to dine
Back up cause Im fine and
I cant believe it's happening
Golden color plates, porcelain legs, and fancy dates
Love me cause I know its fate
I cant believe its happeningAnd I found you in the ocean blue, fake sky
Rosy colored bones poke through
And I can never write a lullaby for you, for youDo it man best you can
Driver's in the hippie van

Diamonds in my other hand
I cant believe it's happening
Whos my other sky meet me cause Im flyin high
Jordans silky dress up tie
I cant believe its happeningThe stars are align makes you want to dine
Back up cause Im fine and
I cant believe its happening
Golden color plates, porcelain legs, and fancy dates
Love me cause I know its fate
I cant believe its happeningDo it man best you can
Driver's in the hippie van
Diamonds in my other hand
I cant believe it's happening
Whos my other sky meet me cause Im flyin high
Jordans silky dress up tie
I cant believe its happeningThe stars are align makes you want to dine
Back up cause Im fine and
I cant believe its happening
Golden color plates, porcelain legs, and fancy dates
Love me cause I know its fate
I cant believe its happeningThe stars are align makes you want to dine
Back up cause Im fine and
I cant believe its happening
Golden color plates, porcelain legs, and fancy dates

I cant believe its happening
