Cool Blue

Eurythmics

Blue the color suits you cool blue
How will you stay this way for ever?
Blue again it's a lasting chill
To keep you cold as winter
How can I forget you?
I'm never gonna give you up, up I said
How can I forget you baby?
I'm never gonna give you up, up I said
Here it comes again
Here it comes again
Here it comes again
Here it comes again
Blue the color fools you cool blue
I'll never stay away for ever
How can I forget you?
I'm never gonna give you up, up I said
How can I forget you baby?
I'm never gonna give you up, up I said
Here it comes again

Here it comes again
Here it comes again
Here it comes again
How could she fall for a boy like that
How could she fall for a boy like that
How could she fall for a boy like that
How could she fall for a boy like that
Blue the color suits you cool blue
Blue the color fools you blue again
Blue, cool blue
How will you stay this way for ever?
How can I forget you baby?
I'm never gonna give you up, up I said
How can I forget you baby?
I'm never gonna give you up, up I said
How can I forget you baby?
I'm never gonna give you up, up I said
How can I forget you baby?
