## System Of A Down

Flaunt your will at every wheel  
Parachute your chocolate soul  
Cobblestones under your [incomprehensible] I got pictures on my mind  
I got pictures on my mind  
I got pictures on my mind  
I got pictures on my mind Circumvent your thick ego  
Wooden [incomprehensible] they're on the go  
You can't tell me that [incomprehensible] I got pictures on my mind  
I got pictures on my mind  
I got pictures on my mind  
I got pictures on my mind Fear waits, for us  
When the present can't be sealed  
Away, gold dust  
Now the dishes can be cleared  
Fear waits, for us  
Till the moment is revealed  
Then turns to rust  
For the mighty conquered meal Can't you look at my shamed ass?  
Ounce is gone and God is once  
You can't see me suddenly I got pictures on my mind  
I got pictures on my mind  
I got pictures on my mind  
I got pictures on my mind I got pictures on my mind
