Another Intervention

Down to Earth Approach

Is this what you wanted?
Could anyone ask for more?
Is this what was chosen?
Change your face on a shoestring
If you knew what you needed
My phone would stop ringing
If you knew what was needed
My phone would stop ringing
On one hand, it's hard enough
You won't let a moment pass you by
When would I see you?
And would I expect to?
When are you 25?
And what have you done?
It's over
You can tell by the look on my face
It says it's over
