Make It Up With Love

Atl

Let me make it up with love
Lay your body down, baby let me work it out
Making love will change your mind
Everything is fine, I put my name on it
Sign it on the dotted line, all night hit you with this love
Let me make it right, let me make it up with love
So you say you need your space
You say you need to get away, I'm croudin' you
But girl game, recognize game
I know what you're going through, ooh yeah
You're feeling frustrated, I ain't been spending time lately
Your body needs attention that I ain't been giving
That's my bad, don't leave
Let me make it up with love
Lay your body down, baby let me work it out
Making love will change your mind
Everything is fine, I put my name on it
Sign it on the dotted line, all night hit you with this love
Let me make it right, let me make it up with love
You know you like it when I touch you there
Let me show you I care, before you leave
Let me be your counselor, your comforter
Your doctor, your remedy, ooh yeah
Girl I know what you been needing, your body needs sexual healing
And I'm here, I can make it right if you just let me, don't leave, yeah
Let me make it up with love
Lay your body down, baby let me work it out
Making love will change your mind
Everything is fine, I put my name on it
Sign it on the dotted line, all night hit you with this love
Let me make it right, let me make it up with love
Listen baby, baby when it's all said and done
You and me will be as one, we can lay in love
No no no no, rushing, rushing
And girl I'm putting this on everything
You ain't gotta leave, no
Let me make it up with love
Lay your body down, baby let me work it out
Making love will change your mind

Everything is fine, I put my name on it
Sign it on the dotted line, all night hit you with this love
Let me make it right, let me make it up with love
Let me make it up with love
Lay your body down, baby let me work it out
