French Cartoon

Brainstorm

Easy we follow, easy we trust
Some things we want, and some things we must
Sometimes we're losing, somedays we're lost
All we have from down until dust
Don't wanna no more be educated allwise
Subtine of all being analysed
Sometimes we're losing, somedays we're lost
All we have from down until dustDays, golden day still to come
And what
What we'll say to those who are goneNo listen no more
Your love is what we're looking forWays, silver ways to the moonlight
I'll come
You can follow your friend just as long as the nightIt's over
We'll be bone what it's day
Now when we get it's over
What we seeOur tears run away
No listen no more
Your love is what we're looking for
Our tears run away
No listen no more
Your love is what we're looking forI'll come
You can follow your friend just as long as the night
