Division of Laura Lee

Stand up for yourself
Like I stand up for myself
That's no way to be
Flat down on your kneesFriendship's bad side
Means all the things you need
Partnership, allied
Means all the things you stole from meYou've got everything you need from me
If that's the way you want to be
You'll get everything you want, that's all
I am everything you want, that's allYou've got to believe
If you want to succeed
Believe in yourself
Try to make up your mindFriendship's bad side
Means all the things you need
Partnership, allied
Means all the things you stole from meYou've got everything you need from me
If that's the way you want to be
