## Zao

A day not to forget, the machine has collapsed
Under the program it's been given, look inside
The broken shell, look inside the broken shell
To see the broken heartThey can't believe the machine was alive
But we saw it bleed, we saw it bleed, we saw it bleed
We saw it bleed, we saw it bleed, we saw it bleed
We saw it bleed, we saw it bleed, we saw it bleedThe machine it falls apart and when it's cut, it bleed
The machine bleeds, the machine bleeds
The machine bleeds, the machine bleeds
The machine bleeds, the machine bleeds, she was alive
