

Hemorrhage

My Ruin

I stick my finger down your throat
Explore my thoughts of murder
A journey through the human heart
Dark places filled with terror Obsession lets me have my way
Devotion makes you stay
This mercy seat you imitate
Won't let you get away In praise of him I pray
In praise of him I save
In praise of him I give myself away Come kiss away my honesty
Exploit me with your pain
Learn to love this monster you created in your name Confession lets you face your fear
Redemption leaves a stain
The thought of me makes you so sick
There's nothing left to hate In praise of him I pray
In praise of him I save
In praise of him I give myself away again In praise of him I've prayed
In praise of him I'm saved
In praise of him I gave myself away A different sort of suffering
I practice what I preach
Aroma therapeutic death
Can you still smell me speak? If violence is religion then everyone's a star
It doesn't matter what you've done
Only who you are
Who you are, who you are Underneath the Hollywood cross
Underneath this holy wood cross
My lover let me tie you down Hold your heart my hostage
I promise after I am through
Your skin will still taste salted My mouth is not your enemy
My lips are not your friend
If we were still together
I would torture you again In praise of him I pray
In praise of him I save
In praise of him I give myself away In praise of him I've prayed
In praise of him I'm saved
In praise of him I hate myself today You never know what you will find
Until you look inside
I never knew what I would find
And then I looked inside Let me torture you again
Torture you, my friend

Let me torture you again
Torture you, my friendLet me torture you again
Like you torture me, my friend
Let me torture you again
Torture you, my friend
It never ends
