That Place

Smokey Robinson

That place deep inside of you
That special place you give me
That you say is mine exclusively
What you say is my private domain
You've made that so plain
That place deep inside of you
Where no other one is allowed
'Cause it's mine, all mine, all mine, all mine
Makes me feel so proud
What you say is my territory
Is there just for me?
Ooh, it's my paradise
Ooh, it's my comfort zone
Ooh, it's so very nice

Knowing there's a part of you that's mine alone
Oh, there's no place like that place deep inside of you
That's always ready for me
That's so full of love and you let it flow free
It comes flowing down like warm summer rain
Before the feelings over here it comes again
Before the feelings over here it comes again
There's no place like that place
No place like that place, oh, no place
Ooh, wanna tell you that there's no place like that place
No, no, no, no place, no place like that place
Yeah, deep inside of you
