Awful Direction

The Almost

Life has given me the, me the creeps
I need you to make, to make, to make me weak
I have made my world my own, I made it my own
And I have never been so aloneI can't stop my brain from moving in an awful direction, Lord
I can't stop my hands from doing what I don't want to anymore
I've been wrong, I've been right but tonight I just wanna be YoursAnd I'm planing this out to be all about me
I, I am wrong, can You help me?I can't stop this brain from moving in an awful direction, Lord
I can't stop these hands from doing what I don't want to anymore
I've been wrong, I've been right but tonight I just wanna be YoursI've got to let go all this
'Cause I'm dragging me down, downI can't stop my brain from moving in an awful direction, Lord
I can't stop my hands from doing what I don't want to anymore
I've been wrong, I've been right but tonight I just wanna be Yours
I just wanna be Yours, I just wanna be Yours
