

Call Your Name (Miami Kidz Club)

Gravitonas

When I call your name
Breaking the spell
Do you feel the same
Heaven and hell
When I call your name
The blood rushing fast in my veins When I sense your touch caught in the game
When this love's too much burst into flames
When I sense your touch twist form pleasure to pain When I call your name a flash in the light
Can you feel the same I am blinded by light
When I am into the fire a drowning desire I call your name
When I call your name baby
When I call your name When I call your name make in a pledge
Do you feel the same dance on the edge
When I call your name nothing else matters to me When I call your name When I call your name a flash in the
light
For you feel the same I am blinded by light
When I am into the fire a drowning desire I call your name
When I call your name baby
When I call your name When I call your name I feel desire
Desire
When I call your name I feel desire When i call your name
Breaking the spell
Do you feel the same
Heaven and hell
When I call your name
The blood rushing fast in my veins When I call your name a flash in the light
For you feel the same I am blinded by light
When I am into the fire a drowning desire I call your name
When I call your name baby
When I call your name
