Failure

Ian Ball

She was the first I ever knew
Came from the mainland on the east side
She said, "Dont follow me, dont follow me, youll get lost
If you follow me, if you follow me youll get lost"Shes not your regular Mrs. Robinson
She got him drunk so she could sneak out the hotel
I played a little song, I got it all wrong
It sounded like easy loverWell, she left and she smiled, didnt look like her type
Looked like genesisShe said, "Hey, dont let a little failure get you down"
She said, "Hey, don't let a little failure get you down"
She said, "Hey, don't let a little failure get you down"
Cause it happens to the best of usShe asked me which way I wanted to go
I was too young to know the difference
When she showed me a trick, I couldnt handle it
I was too nervousSo she gave me a wink, said I would thank her for it
In the future when the other girls are lining upDon't let a little failure get you down
She said, "Hey, don't let a little failure get you down"
She said, "Hey, don't let a little failure get you down"
She said, "Hey, don't let a little failure get you down"She said, "Hey, don't let a little failure get you down"
She said, "Hey, dont ever let the failure get you down"
Cause it happens to the best of us
