Trampoline

Dynamite Boy

Is it time to end this whole charade
Time to stop the things that we both made
Is it time to call an early night
'cause time will tell that I was right
Are you up or are you always down
Do you wanna get out of this town
When were you planning to choose a side
Are you gonna do something or hide
I'm gone now whatcha gonna do
I will not be here just for you
You can act like your alright, tonight
But I know you're not that strong
Is there a way to turn back all the clocks
Turn'em back and cut out the hard knocks
And we all need those troubling times
But yours are yours and mine are mine
