Chasing You

Mark Rosas

I see myself running
Around your wandering eyes, again
I wonder if you see me
With someone else I could never be
And I'm trying to find the moment I can ask you how you feel
And I'm trying to make this dream I had with you a little more real
Chasing you into the dark
Chasing you with all my heart
Don't turn around, don't let me down
You're more than I compare
You're everywhere
You're everywhere
I don't think you were with me
Holding me in your arms again
I lost myself in your presence
I lost myself in your everything
And I'm fighting past the fear of you pretending not to care
And I'm trying not to understand the need to have you here

Chasing you into the dark
Chasing you with all my heart
Don't turn around, don't let me down
You're more than I compare
You're everywhere
You're everywhere
There's nothing more that I can do
And Nothing I can say
I can't change my mind
And this feeling won't go away
Chasing you into the dark
Chasing you with all my heart
Don't turn around, don't let me down
Be here, be now, be every how
Chasing you into the dark
Chasing you with all my heart
You're ruling me, consuming me
You're everything to me
You're everywhere
You're everywhere

You're everywhere
